PPE CATEGORY II

Read the instructions carefully.

Complies with the requirements of the Regulation (EU) 2016/425

Product: Winter gloves.

Design:	“NERO WINTER“	Code:	3700 008 000 11	Size:	11	Production design:	16801011
Material:	Back and cuff cotton fabric, palm and fingers of PVC, plush lining. 45% PVC, 22% Acrylic, 21% Cotton, 12% Polyester.						

Purpose: They may serve as a protection of hands against dirt and protection in the working areas where workers have to face mechanical hazards. Put the gloves on dry, clean hands.

The gloves were tested in accordance with EN 388 - mechanical hazards (The higher the number, the higher the protection factor)			 A.B.C.D.	The protection works only against the specified hazards. Do not use the gloves as a protection against different hazards and classes. The results apply only for the model classes, not for the protection levels (classes). The protection levels (classes) are determined based on the tests carried out in accordance with the conditions determined in the valid standards specified here. As for the gloves with two or more layers it does not necessarily reflect the properties of the outer layer.
A (0-4)	Abrasion resistance	Performance level 2		
B (0-5)	Cut resistance	Performance level 2		
C (0-4)	Tear resistance	Performance level 1		
D (0-4)	Puncture resistance	Performance level 1		
EN 420 - protective gloves (general requirements)				
(1-5)	Dexterity	Performance level 2		
„X“ = test not performed or not applicable..				

Please note: The user must check the gloves before and after use to verify that they are in the required condition. Do not use as a protection against different hazards and classes. Do not use for manipulating hot or heated objects, toxic chemicals or greasy objects. Gloves material may be damaged by oil, mineral oil, greasy and solvent organic. Not resistant to soaking. Gloves can when soaked lose their insulating properties.

It is not allowed to wear these gloves in cases with risk of entanglement with moving parts of machines. The mentioned facts may help the user for rational use of this type of protective gloves. It is the responsibility of every user to judge, whether the gloves are used in suitable conditions.

Maintenance, lifetime: After use, make sure the gloves are removed from all pollutants. To prolong the life of the glove. The gloves are designed for single or short-term use only. Damp gloves should be dried out at a room temperature. Gloves should not be washed. Any dirt should be brushed out using a soft brush. Do not clean chemically, bleach, dry in a tumble dryer, or iron. The gloves that are worn through, have holes burned through, or are hard must be replaced. We are not responsible for possible reduction of the protective function caused by improper maintenance.

Under suitable storage conditions, shelf life is 2 years.

Storing and transport: Storing in a clean, dry and ventilated place at the room temperature, without any contamination by moisture, dirt, mould, or other agents reducing the level of protection. Do not expose it to solar radiation. The supplier doesn't provide warranty for such damage. Carry them preferably in original package.

Accessories: The product is supplied without accessories.

Dangerous admixtures: The product does not contain any substances, which are known for their adverse impact on hygiene and health of users nor there are suspected of it. In spite of that, the materials which come into contact with a user's skin can cause an allergic reaction in sensitive individuals. If skin irritation or allergic reaction do not use gloves and contact your doctor immediately.

Disposal: Dispose of used gloves with respect of the soiling level according to the applicable disposal regulations and the regulations of the local authority. Unused gloves can be disposed of with domestic waste.
