PPE CATEGORY II

Read the instructions carefully.

Complies with the requirements of the standard 89/686/EEC

Product: Protective 5-finger anti-vibration gloves made of seamless knitted fabric with foam latex pads on fingers and palms.

Design:	„AMET“	Code:	3640 021 800 00	Size:	10	Manufacturer design	ATV001
Material:	Knitted fabric – 95% nylon, 5% cotton, and coating with pads – foam latex.						

Purpose: Serves as a protection of hands against mechanical impacts, particularly for reduction of vibrations transmitted to hands while working with hand tools. Put the gloves on dry, clean hands.

The gloves were tested in accordance with EN 388 - mechanical hazards (The higher the number, the higher the protection factor)				
A (0-4)	Abrasion resistance:	Performance level 4	 A.B.C.D.	The protection properties function only in the areas covered by plastic pads and against the hazards specified in this document. Do not use them as a protection against other hazards and classes. The results only represent model classes, not protection levels (classes). These levels of classes are obtained from tests carried out in laboratory environment, in accordance with the conditions determined in above specified valid standards. Real absorption of vibrations can differ in working environment from absorption measured in a laboratory. Always use gloves of appropriate size,
B (0-5)	Blade cut resistance	Performance level 2		
C (0-4)	Tear resistance	Performance level 4		
D (0-4)	Puncture resistance	Performance level 2		
EN ISO 10819 – vibrations and impact – hands vibrations.				
Vibration transmissibility in medium-frequency spectrum “M”		0,865		
Vibration transmissibility in high-frequency spectrum “H”		0,598		
EN 420 - protective gloves (general requirements)				
(1-5)	Dexterity	Performance level 5		
„X“ = test not performed or not applicable..				

Please note: The user must check the gloves before and after use to verify that they are in the required condition. Do not use as a protection against different hazards and classes. Do not use the gloves for handling with sharp objects, flames or hot or heated objects, toxic chemicals or greasy objects. Not resistant to soaking. It is not allowed to wear these gloves in cases with risk of entanglement with moving parts of machines. Anti-vibration gloves can limit, however not eliminate, health hazards related to exposure to vibrations transmitted to hands.

Never use damaged gloves.

The mentioned facts may help the user for rational use of this type of protective gloves. It is the responsibility of every user to judge, whether the gloves are used in suitable conditions.

Maintenance: After use, make sure the gloves are removed from all pollutants. Thus, you will extend their lifespan. Wet gloves should be dried freely laid out at room temperature, away from sources of heat. Maximal wash bath temperature 40 °C. Or dirt be brushed out using a soft brush and rinse with water. Do not clean chemically, bleach, dry in a tumble dryer, or iron. Worn through, burned through, strongly fouled or stiffened pairs have to be replaced with new ones. We are not responsible for any reduction of the protective function due to incorrect care.

Storing and transport, lifetime: Storing in a clean, dry and ventilated place at the room temperature, without any contamination by moisture, dirt, mould, or other agents reducing the level of protection. Do not expose it to solar radiation. The supplier doesn't provide warranty for such damage. Carry them preferably in original package. Under suitable storage conditions, shelf life is 2 years.

Accessories: The product is supplied without accessories.

Dangerous admixtures: The gloves contain allergen - Latex. They may cause an allergic reaction if used by sensitive people, including anaphylactic shock. If skin irritation or allergic reaction contact your doctor immediately.

Disposal: Dispose of used gloves with respect of the soiling level according to the applicable disposal regulations and the regulations of the local authority. Unused gloves can be disposed of with domestic waste.

The Notified Body that performs conformity assessment: Notified Body No. 0321, SATRA Technology Centre, Wyndham Way, Telford Way, Kettering, Northamptonshire, NN16 8SD, United Kingdom.

Manufacturer: Qingdao YSD Plastic Rubber Co Ltd; No 2008 South Kunlunshan Rd; Huangdao Zone; Qinddao; China.

The Declaration of Conformity can be found here: www.canis.cz; for individual products, in the bar "Documents to download".
